Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Configuration Overview

The topics in this section guide you through the configuration and administration options in the Stellar Cyber user interface, such as creating and managing connectors, configuring sensors, creating and managing dashboards/reports, managing configurations for your data processor, users, and the server itself.

See the following sections for details:

- **System (Management) Overview**
- **Configuring Parsers and Log Sources**
  - Ingesting Logs
  - Common Log Formats
  - Firewall Requirements
  - Log Parser Ports
  - Parser Studio – Parsers
  - Parser Studio – Log Sources
  - Upload a Custom Parser Provided by Customer Success
  - Configuring Generic Log Capture
  - Ingesting Logs over TLS
  - Configuring F5 BIG-IP Telemetry
  - Configuring Bitdefender Log Ingestion
  - Configuring Corelight Sensor Log Ingestion
  - Configuring CyberArk CEF Log Ingestion
  - Configuring SentinelOne Log Ingestion
  - Configuring NXLog for HostIP Field
  - Configuring a Central Windows Log Collector
  - Configuring ERSPAN Ingestion
  - Configuring RSPAN Ingestion
  - Single Sensor Multi-Tenant Log Ingestion

- Using the Detection Management System
- **Configuring Sensors**
  - Using the Sensor Overview
  - Sensor Details
  - Sensor CLI Access Window
  - About Receivers
  - Configuring Sensor Profiles
  - Configuring a Data Aggregator
  - Using the Sensor Installation Page
  - Server Sensor Update Behavior through an Aggregator
  - Configuring AWS Port Mirroring
  - Configuring GCP Packet Mirroring
  - Configuring Windows to Identify Who Deleted Files
  - Forwarding Malware to an External HTTPS Server
- **Configuring Connectors**
  - Working with the Connectors Table
  - Connector Details Page
  - Connector Types & Functions
  - Connectors and Integrations Summary
  - AWS Connectors Authentication with IAM Role
  - 1Password Connector
  - Abnormal Security Email Security Connector
  - Acronis Cyber Protect Cloud Connector
  - Active Directory Connector
  - Akamai Connector
  - Amazon Security Lake Connector
  - Armis Connector
  - Aruba Central Connector
  - Automox Connector
  - AWS CloudTrail Connector
  - AWS CloudWatch Connector
  - AWS Firewall Connector
  - AWS GuardDuty Connector
  - AWS Inspector Connector
  - Azure Event Hub Connector
  - Azure NSG Connector
  - Barracuda Email Connector
  - Barracuda Firewall Connector

- Barracuda WAF Connector
- BeyondTrust Connector
- Bitdefender Connector
- BlackBerry Cylance Connector
- Box Connector
- Broadcom (Blue Coat / Symantec) WSS Connector
- Broadcom Symantec Endpoint Security (SES) Connector
- Broadcom (Symantec) Email Security.cloud Connector
- Broadcom (Symantec) Cloud Workload Protection Connector
- Cato Networks Connectors
- Check Point Firewall Connector
- Check Point Harmony Email Connector
- Check Point Smart-1 Cloud Connector
- Cisco AMP Connector
- Cisco Firewall Management Center (FMC) Connector
- Cisco Meraki Firewall Connector
- Cisco Secure Access Connector
- Cisco Umbrella Connector
- Cloudflare Connector
- CODA Footprint Connector
- ConnectSecure V4 Connector
- Coro Connector
- CrowdStrike FDR Connector
- CrowdStrike (Hosts/Events) Connector
- CyberArk EPM Connector
- CyberCNS Connector
- Cybereason Connector
- Cyble Connector
- Cynet Connector
- CYRISMA Connector
- Deep Instinct Connector
- Duo Security Connector
- ESET Responder Connector
- ExtraHop Reveal(x) 360 Connector
- F5 BIG-IP ASM Connector
- F5 BIG-IP Firewall Connector
- F5 Silverline Connector
- Configuring F5 BIG-IP Telemetry

- Firewalla Managed Security Portal Connector
- Forescout Connector
- FortiEDR Connector
- Fortigate Firewall Connector
- FortiManager Connector
- Fortra Frontline Connector
- Generic S3 Connector
- Google Cloud Audit Log Connector
- Google Cloud Security Command Center Connector
- Google Workspace Connector
- Group-IB Connector
- Halcyon Connector
- HanDreamnet Security Switch Connector
- HIBUN Connector
- Hillstone Firewall Connector
- Hoxhunt Connector
- Huntress Connector
- HYAS Protect Connector
- iManage Threat Manager Connector
- Imperva Incapsula Connector
- Indusface Connector
- Ironscales Connector
- Jamf Pro Connector
- Jamf Protect Connector
- JumpCloud Connector
- Juniper Mist Connector
- LastPass Connector
- LimaCharlie Connector
- Liongard Connector
- Mailprotector Connector
- Manage Engine Endpoint Central Connector
- Memcyco Connector
- Microsoft Defender for Cloud Apps Connector
- Microsoft Defender for Endpoint Connector
- Microsoft Entra ID (formerly Azure Active Directory) Connector
- Microsoft Graph Intune Connector
- Microsoft Graph Message Trace Connector
- Microsoft Graph Security API Connector

- Mimecast API 1.0 Connector
- Mimecast API 2.0 Connector
- Microsoft SQL Server Connector
- MySQL Connector
- Nessus Connector
- NetFoundry Connector
- Netskope Connector
- Nodeware Connector
- NodeZero Connector
- NordStellar Connector
- Office 365 Connector
- Office 365 Reporting Web Service Connector
- Okta Connector
- OneLogin Connector
- Oracle Cloud Infrastructure (OCI) Streaming Connector
- Palo Alto Networks CORTEX XDR Connector
- Palo Alto Networks Firewall Connector
- Palo Alto Networks Panorama Connector
- People Risk Explorer Connector
- Perception Point X-Ray Connector
- Prisma Cloud (Palo Alto Networks) Connector
- Proofpoint on Demand Connector
- Proofpoint TAP Connector
- Qualys Connector
- Qualys FIM Connector
- Rapid7 Connector
- Recorded Future Connector
- Remote SSH Host Connector
- Salesforce Connector
- SentinelOne Connector
- SOCRadar Connector
- SonicWall Capture Client Connector
- SonicWall Endpoint Security Connector
- SonicWall Firewall Connector
- Sophos Central Connector
- Sophos XG Firewall Connector
- Stellar Cyber Connector
- Stormshield Network Security (SNS) Firewall Connector

- Sucuri Security Connector
- Tenable Cloud Security Connector
- Tenable.io Connector
- Tenable.sc Connector
- ThreatDown OneView (formerly Malwarebytes OneView) Connector
- Threatlocker Connector
- Thinkst Canary Connector
- Trellix (FireEye) Endpoint Security HX Connector
- Trellix MVISION Connector
- Trend Micro Apex Central Connector
- Trend Micro Cloud App Security Connector
- Trend Micro Cloud One Security Connector
- Trend Micro Email Security Connector
- Trend Micro Vision One Connector
- Universal Webhook Responder Connector
- VadeSecure Connector
- Verkada Connector
- Versa Networks Concerto Connector
- Versa Networks Firewall Connector
- Vicarius Connector
- VMware Carbon Black Cloud Connector
- VMware Workspace ONE Connector
- WatchGuard Firebox Responder Connector
- Webroot Connector
- WithSecure Elements Connector
- Wiz Connector
- XDR Connector
- Using InSyncs
- About the Threat Intelligence Platform
- Managing IoCs in the Threat Intelligence Platform
- Configuring Feeds in the Threat Intelligence Platform

- **Configuring Global Shared Resources**
  - Configuring Data Enrichment
  - Working with Queries and Filters
  - Working with Watchlists
  - Creating Saved Scripts
  - Configuring Recipients
  - Working with Filters

- **Managing Access**
  - Editing Your User Profile
  - Managing Users
  - Configuring Object-Level Sharing and Access Control
  - Configuring Recipients
  - Configuring Role-Based Access Control
  - Managing Tenants
  - Configuring External Authentication & Authorization
- **Streaming Data to a Snowflake Data Lake**
- **Managing Settings**
- **Managing Certificates**
  - Managing Certificates
  - Generating Server Certificates
  - Configuring Certificates for AD Connectors with LDAPS
- **Managing Licenses**
  - Managing Licenses
  - Understanding Asset-Based Licensing
  - Understanding Volume-Based Licensing
  - Understanding License Compliance
- **Managing Notifications**
  - Using the System Action Center
  - Using the Notification Center
