Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Installing a Modular Sensor

The topics in this section take you through all the procedures you need to install a Modular Sensor.

Keep in mind that a Modular sensor can operate using a combination of features, depending on what you enable in its Sensor Profile.

Stellar Cyber does not support the installation of third-party software on its virtual or physical device sensors.

See the following sections for details:

- **Installing a Modular Sensor in VMware**
- **Installing a Modular Sensor in AWS**
- **Installing a Modular Sensor in Azure**
- **Using a Modular Sensor with Azure Virtual Network TAP (VTAP)**
- **Installing a Modular Sensor in GCP**
- **Installing a Modular Sensor in OCI**
- **Installing a Modular Sensor in KVM (SaaS)**
- **Installing a Modular Sensor in Hyper-V**
- **Converting Sensor Storage to Use Encryption in AWS**
