Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Installing a Server Sensor

The topics in this section take you through all the procedures you need to install a Server Sensor in both Linux and Windows environments.

See the following sections for details:

- **Server Sensor Sizing Specifications**
- **Supported Sensor Operating Systems**
- **Installing a Linux Server Sensor**
- **Deploying Linux Server Sensors Using Ansible**
- **Installing a Windows Server Sensor**
- **Cloning Windows Server Sensor VMs**
