Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to AWS S3 Bucket Policy with Public Access Alert 6.5.0

The following rules are used to detect S3 bucket policies that allow unauthorized public access. Any one or more of these will trigger the AWS S3 Bucket Policy with Public Access Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description
Public Access in AWS S3 Bucket Policy	Detects S3 bucket policies that allow public access by granting permissions to all principals (Principal: "*"). This configuration can result in unauthorized data exposure and potential data breaches. More details
