Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to BloodHound Enumeration Activity 5.5.0

The following rules are used to identify potential domain enumeration activity from BloodHound or other Active Directory data collection tools. Any one or more of these will trigger the BloodHound Enumeration Activity Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

BloodHound Enumeration Activity	Detects unusual LDAP search requests, which can be potential domain enumeration activity from BloodHound or other Active Directory data collection tools.
