Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Microsoft 365 Rare Operations Alert 6.2.0

The following rules are used to identify rare and suspicious Microsoft 365 mailbox operations. Any one or more of these will trigger the Microsoft 365 Rare Operations Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

Rare and Potentially High-Risk Office365 Operations	Identifies Office365 operations that are typically rare and can provide capabilities useful to attackers.
