Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Microsoft Entra Application Deleted Alert

The following rules are used to identify events when a Microsoft Entra application is deleted. Any one or more of these will trigger the Microsoft Entra Application Deleted Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

Azure Application Deleted	Identifies when an application is deleted in Azure.
	More details
	Rule ID
	`azure_80`
	Query
	`{'selection': {'properties_message': ['Delete application', 'Hard Delete application']}, 'condition': 'selection'}`

	Severity
	50
	Suppression Logic Based On
	• azure_ad.initiatedBy.user.id
	• azure_ad.initiatedBy.app.servicePrincipalId
	• stellar.rule_id

Title	Description

Additional Information

Maturity	Creation Date	Risk Level	False Positives
test	2021/09/03	medium	• Application being deleted may be performed by a system administrator. • Verify whether the user identity, user agent, and/or hostname should be making changes in your environment. • Application deleted from unfamiliar users should be investigated. If known behavior is causing false positives, it can be exempted from the rule.
