Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Microsoft Entra Application Permission Changes Alert

The following rules are used to identify suspicious Microsoft Entra application permission changes. Any one or more of these will trigger the Microsoft Entra Application Permission Changes Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

App Granted Privileged Delegated or App Permissions	Detects when administrator grants either application permissions (app roles) or highly privileged delegated permissions
	
	More details
	
	Rule ID
	`azure_21`
	
	Query
	`{'selection': {'properties_message': 'Add app role assignment to service principal'}, 'condition': 'selection'}`
	
	Log Source
	Stellar Cyber Microsoft Entra Events configured.
	
	Rule Source
	SigmaHQ,5aecf3d5-f8a0-48e7-99be-3a759df7358f
	
	Author: Bailey Bercik '@baileybercik', Mark Morowczynski '@markmorow'
	
	Tactics, Techniques, and Procedures
	TA0004, T1078.004
	
	References
	• https://docs.microsoft.com/en-us/azure/active-directory/fundamentals/security-operations-applications#application-granted-highly-privileged-permissions
	
	Severity
	75
	
	Suppression Logic Based On
	• azure_ad.initiatedBy.user.id

Title	Description
	 • ure_ad.initiatedBy.app.servicePrincipalId • stellar.rule_id **Additional Information** **Maturity**: experimental **Creation Date**: 2022/07/28 **Risk Level**: high **False Positives**: • When the permission is legitimately needed for the app

App Role Added	Detects when an app is assigned Microsoft Entra roles, such as global administrator, or Microsoft Entra RBAC roles, such as subscription owner.
	More details
	Rule ID
	`azure_24`
	Query
	`{'selection': {'properties_message': ['Add member to role', 'Add eligible member to role', 'Add scoped member to role']}, 'condition': 'selection'}`
	Log Source
	Stellar Cyber Microsoft Entra Events configured.
