Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Microsoft Entra ID Discovery using Azurehound Alert

The following rules are used to identify Microsoft Entra ID discovery using Azurehound. Any one or more of these will trigger the Microsoft Entra ID Discovery using Azurehound Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

Discovery Using AzureHound	Detects AzureHound (A BloodHound data collector for Microsoft Azure) activity via the default User-Agent that is used during its operation after successful authentication.
