Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Microsoft Entra ID MFA Disabled Alert

The following rules are used to identify events when a Microsoft Entra ID multi-factor authentication is disabled. Any one or more of these will trigger the Microsoft Entra ID MFA Disabled Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

Disabled MFA to Bypass Authentication Mechanisms	Detection for when multi-factor authentication has been disabled, which might indicate a malicious activity to bypass authentication mechanisms.
