Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Microsoft Entra Owner Removed from Application Alert

The following rules are used to identify events when a Microsoft Entra owner is removed from an application. Any one or more of these will trigger the Microsoft Entra Owner Removed from Application Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

Azure Owner Removed from Application or Service Principal	Identifies when an owner was removed from an application or service principal in Azure.

	Severity
	50
	Suppression Logic Based On
	• azure ad.initiatedBy.user.id

Title	Description
	 azure_ad.initiatedBy.app.servicePrincipalId • stellar.rule_id

Additional Information

Maturity	Creation Date	Risk Level	False Positives
test	2021/09/03	medium	• Owner being removed may be performed by a system administrator. • Verify whether the user identity, user agent, and/or hostname should be making changes in your environment. • Owner removed from unfamiliar users should be investigated. If known behavior is causing false positives, it can be exempted from the rule.
