Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Protected Storage Service Access Alert

The following rules detect suspicious SMB traffic accessing protected storage services. Any one or more of these will trigger the Protected Storage Service Access Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

Protected Storage Service Access	Detects access to a protected_storage service over the network. Potential abuse of DPAPI to extract domain backup keys from Domain Controllers
