Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Steal or Forge Kerberos Tickets Alert 6.1.0

The following rules are used to identify suspicious activity to steal or forge kerberos tickets. Any one or more of these will trigger the Steal or Forge Kerberos Tickets Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Windows Events Required: 4104, 4611, 4673, 4769

The Windows Detect Profile (Low Volume) covers these required Windows events.

Title	Description

Register new Logon Process by Rubeus	Detects potential use of Rubeus via registered new trusted logon process
	More details
	Rule ID
	`windows_security_16`
	Query
	`{'selection': {'EventID': 4611, 'LogonProcessName': 'User32LogonProcesss'}, 'condition': 'selection'}`
	Log Source
	Stellar Cyber Windows Server Sensor configured for:
	• Collecting Windows security events
