Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Suspicious Handle Request to Sensitive Object Alerts

The following rules are used to identify suspicious activity with handle requests to sensitive Windows objects. Any one or more of these will trigger a Suspicious Handle Request to Sensitive Object Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Windows Events Required: 4656

The Windows Detect Profile (Low Volume) covers these required Windows events.

Title	Description

SAM Registry Hive Handle Request	Detects handles requested to SAM registry hive
