Rules Contributing to Suspicious Microsoft 365 Inbox Rule Alert 6.2.0

The following rules are used to identify suspicious Microsoft 365 inbox rules. Any one or more of these will trigger the Suspicious Microsoft 365 Inbox Rule Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

Malicious Office365 Inbox Rule	Often times after the initial compromise, the attackers create inbox rules to delete emails that contain certain keywords. This is done so as to limit ability to warn compromised users that they have been compromised.
