Stellar Cyber 6.6.0s is now live! Discover all the updates in the release notes!

Rules Contributing to Suspicious Microsoft Entra Service Principal Activity Alert

The following rules are used to identify suspicious Microsoft Entra service principal activity. Any one or more of these will trigger the Suspicious Microsoft Entra Service Principal Activity Alert. Details for each rule can be viewed by clicking the **More Details** link in the description.

Title	Description

Azure Service Principal Created	Identifies when a service principal is created in Azure.
	More details
	Rule ID
	`azure_74`
	Query
	`{'selection': {'properties_message': 'Add service principal'}, 'condition': 'selection'}`
	Log Source
	Stellar Cyber Microsoft Entra Events configured.
	Rule Source
	SigmaHQ,0ddcff6d-d262-40b0-804b-80eb592de8e3
	Author: Austin Songer @austinsonger
	Tactics, Techniques, and Procedures
	TA0005, T1578
	References
	• https://docs.microsoft.com/en-us/azure/active-directory/reports-monitoring/reference-audit-activities#application-proxy
	Severity
	50
	Suppression Logic Based On
	• azure_ad.initiatedBy.user.id
	• azure_ad.initiatedBy.app.servicePrincipalId
	• stellar.rule_id

Title	Description
	Additional Information

Maturity	Creation Date	Risk Level	False Positives
test	2021/09/02	medium	• Service principal being created may be performed by a system administrator. • Verify whether the user identity, user agent, and/or hostname should be making changes in your environment. • Service principal created from unfamiliar users should be investigated. If known behavior is causing false positives, it can be exempted from the rule.

Azure Service Principal Removed	Identifies when a service principal was removed in Azure.
	
	More details
	
	Rule ID
	
	`azure_75`
	
	Query
	
	`{'selection': {'properties_message': 'Remove service principal'}, 'condition': 'selection'}`
	
	Log Source
	
	Stellar Cyber Microsoft Entra Events configured.
